

Calibre.

calibre-style.com

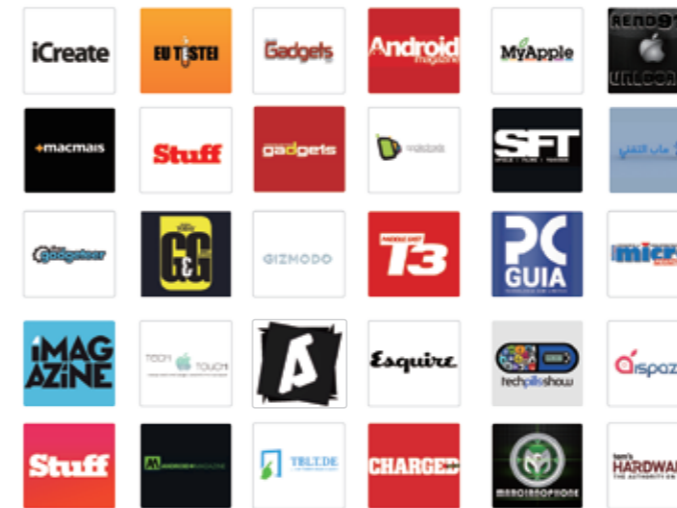

Calibre is a forward-thinking global producer of top-quality and cutting-edge accessories for mobile devices. Calibre is the proud developer of the world's first and only portable power battery with "Vibration Signalling" for USB mobile devices. Our products are born out of a need and love for unique innovation, extreme ease-of-use, exquisite design, creative originality and superb craftsmanship.

Winner of world's top 3 design awards.

Calibre has been honoured with 3 of the most prestigious international awards: Red Dot Design Award Winner 2013 & Good Design Award 2013 & iF Product Design Award 2014. The juries, consisting of industry experts, chose to award ULTRA'GO mini Power Station and so it's proof that Calibre is more than great power, portability and engineering – Calibre is also world-class product design.

- The ULTRA'GO mini Power Station shines by its design with a minimalist design in the pure lineage of Apple devices. 4.5/5 stars. [iCreate](#)
- Just like a MacBook or iPad, ULTRA'GO mini is also milled from a single piece of aluminium, extremely robust and high quality. Sehr Gut Note 1.4 [SFT Magazin](#)
- Inspired by Apple and the very small size. Apple's minimalist aesthetic style. 4/5 stars. [T3](#)
- It stands out for its award-winning minimalist design, but what makes this little gadget even more unique is the Vibration Signalling feature. [Revista Gadget](#)
- It stands out for its reminiscent design of a MacBook Pro. It seems that it was produced in the same factory as Apple devices. [MyApple](#)
- Now this is a portable battery! You're looking at a very appealing product indeed. [T3](#)

Anytime, anywhere

ULTRA'GO nano
POWER STATION

2500mAh

Small but powerful
The world's smallest

With a size smaller than that of a credit card, ULTRA'GO nano is the world's smallest portable power battery of its kind! ULTRA'GO nano Power Station fits easily in your pocket, making it an ideal travel companion, so don't ever leave home without it!

Available colours

Style & minimalism
Masterpiece of stunning craftsmanship

Less is more, a minimalist design can achieve beautiful results. Overall, more than 20 numerous and distinctive steps are required in the production process to obtain the ultra-slim aluminium body that is smaller than your pocket, beauty is evident wherever you look.

Auto-Detect ON/OFF
Smart automatic charging

Charging starts automatically when you connect your device to the ULTRA'GO nano Power Station and when your device is fully charged or the charging cable disconnected, ULTRA'GO nano stops and turns off automatically.
